General Description

The Institution Founded in 1889 by Presbyterians, the University of Pikeville is comprised of the College of Arts and Sciences (CAS) [which includes the Patton College of Education], the Coleman College of Business (CCOB), the College of Nursing and Human Services (CNHS) [which includes the Elliott School of Nursing and the School of Social Work], the Kentucky College of Optometry (KYCO), the Kentucky College of Osteopathic Medicine (KYCOM), and the Tanner College of Dental Medicine. In addition to awarding undergraduate degrees that include foundations of broad liberal arts and sciences education, both undergraduate and graduate (master's) degrees provide opportunities for students to develop to their full academic and personal potentials while preparing for specific careers. KYCO develops leaders in therapeutic optometry through innovative education and a commitment to caring for the underserved. KYCOM provides its men and women with an osteopathic medical education that emphasizes primary care, encourages research, promotes lifelong scholarly activity and a commitment to serving the healthcare needs of communities in rural Kentucky and other Appalachian regions. The College of Dental Medicine aims at educating the dentists of tomorrow to provide greater access to oral healthcare in rural and underserved areas.

Location The University of Pikeville is located on approximately 265 acres in the city of Pikeville, a vibrant community in East Kentucky. Pikeville is one of the state's leading financial centers and has been ranked as one of the "100 Best Small Towns" in America.

University of Pikeville Mission Statement

The University of Pikeville is the leading higher education institution of Central Appalachia. Founded in 1889, UPIKE remains steadfast in our commitment to preparing students for the future while creating intellectual, cultural and economic opportunities for Appalachia. Maintaining our commitment to Christian principles, UPIKE recognizes the infinite worth of each person, respecting a variety of religious expressions.

UPIKE achieves its mission by:

- Creating a pathway to higher education for all students who desire to embark upon that journey and attracting and retaining high caliber students who will be future regional, national and global leaders.
- Preparing graduates through quality academic programs, grounded in the liberal arts, and through involvement in community service, experiential learning, research, athletics, humanitarian efforts and global outreach.
- Achieving academic excellence by maintaining academic rigor and relevancy in undergraduate, graduate and professional degree programs.
- Attracting and retaining distinguished faculty, staff, administrators, trustees and alumni who are dedicated to meeting the individual needs of students, promoting a caring and supportive environment conducive to learning and meeting the needs of an evolving university; and
- Providing superior infrastructure with state-of-the-art classrooms, clinics, instructional materials, physical facilities, technological infrastructure and campus amenities through sound fiscal policy and efficient and effective administrative services.

University Motto

“Prospiciam ad Montes” or “Look to the Mountains.”

Alma Mater – Orange and Black

Gather 'round ye loyal school mates,
Lift each voice 'til echoes ring;
Loudly praise our Alma Mater,
'Tis of Pikeville C. we sing.

And in deepest care or sorrow,
Should we pause to think of thee.
Strong our hearts once more,
As in days of yore,
When we sing of our loyalty.

Orange and Black we hail thee,
Ever thy praises sing!
Oh, see our colors that stand for honor,
And to us victory bring.

Orange and Black forever,
We hail thee far and near!
On the field or in the hall,
We will answer the call;
For we love thee, our College dear.

*Lyrics by George Carmichael
Music by Etta L. Robertson*

History of the University of Pikeville

The University of Pikeville was established in 1889 as an outreach of the Presbyterian Church after an extensive survey of the religious and educational needs of Eastern Kentucky. An 1887 scouting party, which included Dr. W. C. Condit, Rev. Samuel B. Alderson and Rev. James P. Hendrick, set forth, in Condit's words, to "select the location for an institution of higher learning for the youth of the mountains."

September 16, 1889, was the first day of class at Pikeville Collegiate Institute, located in a four-room brick building situated on three acres of land in Pikeville, KY. It functioned as both school and church. The institute was not originally intended to confer degrees, but to give "good practical education to those persons who pursue its courses." At that time, the institute offered schoolwork in primary, preparatory and "college" departments.

In 1909, the structure of the school changed and the articles of incorporation were amended to make Pikeville College a chartered college, empowered by the state of Kentucky to offer four years of college work and confer baccalaureate degrees. The school maintained its commitment to primary and secondary education in the region by sustaining the Pikeville Collegiate Academy for grades 1-12. Pikeville College admitted its first college freshman class in 1916. The final two years of college were added in 1955, and the first baccalaureate graduation was held in 1957, a year that also marked the closing of the Pikeville Collegiate Academy.

Pikeville College School of Osteopathic Medicine opened its doors on Sept. 8, 1997, as the 19th osteopathic medical school in the country. The school was the dream of Paintsville attorney G. Chad Perry III, a visionary whose generosity and perseverance paved the way for a new generation of doctors to provide primary care in medically underserved areas in Eastern Kentucky and Appalachia. On May 12, 2001, these medical students were the first at Pikeville College to receive the doctor of osteopathic medicine (D.O.) degree.

Effective August 1, 2010, the University of Pikeville campus became completely tobacco-free. The Pikeville College Board of Trustees authorized creation of the institution's first master's degree program, a Master of Business Administration (MBA), in February 2011. At that time, the board acknowledged that the college, by definition of the programs it offered, was a university. On July 1, 2011, Pikeville College officially became the University of Pikeville, also known as UPIKE.

The Coal Building, a \$34 million educational facility housing the Kentucky College of Osteopathic Medicine, opened in fall 2012. As part of the plan for growth, the University was reorganized in fall 2013 into three colleges - the College of Arts and Sciences, the Coleman College of Business, and the Kentucky College of Osteopathic Medicine (KYCOM).

The Kentucky College of Optometry (KYCO) enrolled its first class on Aug. 1, 2016, as the 22nd school in the country to have a college of optometry. The Health Professions Education Building a facility that houses KYCO, opened in March 2017. The Kentucky College of Optometry is the fourth college under the University of Pikeville banner and reflects the institution's mission of service and strategic initiatives.

The University of Pikeville's Elliott School of Nursing opened a newly renovated skills and simulation labs, which were funded by a private donor, August 23, 2021. The up-to-date skills lab provides hands-on learning opportunities allowing simulated patients to teach the students the skills needed in the field, along with a hospital-like setting that creates an environment much like what the students will experience in their careers.

In spring 2022, the Tanner College of Dental Medicine was made possible by the generosity of the philanthropic Tanner family. The family, has blessed the University of Pikeville with a transformative \$25 million gift that is not only the largest single gift ever received by the university but the largest donation on record to any Kentucky college. The college plans to begin admitting students in 2026.

- Notes: (1) Academic Progress Rates only include undergraduate varsity participants as reported on the NAIA Institutional Financial Aid Report. This is not limited to first-time freshmen.
 (2) The rate is the product of a formula that takes into account the number of players on each team who stay in college and make progress toward getting their degrees. In other words, a rate of 925 means 92.5% of the students were making some sort of positive academic progress.
 (3) Rates were calculated using NCAA Division I Academic Progress Rate (APR) Technical Analyses, NCAA Research Staff and Research Consultants, 2004.

- Notes: (1) The Transfer-Out Rate includes students in the sub-cohort who transferred to another institution of higher education after ceasing to enroll at the University according to subsequent enrollment data obtained from the National Student Clearinghouse (NSC).
 (2) The completion rate only pertains to that share of the total first-time, full-time freshmen who entered the University in the fall term that year who indicated they were intending to complete baccalaureate (4-year) degree programs. Does not include those first-time, full-time freshmen who indicated they were intending to complete associate (2-year) degree programs. Percentages may not add up to the total due to rounding.
 (3) The Enhanced Completion Rate includes students in the sub-cohort who not only graduated from the University of Pikeville, but who were reported to have graduated within this time frame by the NSC at another institution of higher education.

Notes: (1) The federal graduation rate (total graduates within 150%) only pertains to that share of the total first-time, full-time freshmen who entered the University in the fall term that year who (a) indicated they were intending to complete baccalaureate (4-year) degree programs and (b) received athletically-related student aid at any time during that academic year. Students are counted only once. Students who received athletically-related student aid for multiple sports are included with the sport in which the student received the higher award. (2) The NCAA Graduate Success Rate (GSR) uses the same group of students as the federal graduate statistics but also accounts for students who enter in the spring term and for students who transfer to and from the institution. The GSR, unlike the federal rates, allows for the removal of students from consideration who leave to attend other colleges as long as they depart in good academic standing with remaining eligibility.

Note: (1) The graduation efficiency metric measures an institution's production of graduates in relation to the size of its full-time equivalent baccalaureate degree-seeking student body, adjusted for the balance of beginning and transfer students (Cohen, H, & Ibrahim, N (2008) *Change Magazine*).

- Notes:
- (1) "Time-to-degree" differs from "graduation rate" in that time-to-degree looks only at bachelor's degree recipients and how long it took them to earn their degrees. Graduation rate only pertains to that share of the total first-time, full-time freshmen who entered the University in the fall term that year who indicated they were intending to complete baccalaureate (4-year) degree programs who are successful in their attempt to earn a bachelor's degree at the same institution at which they first attended within a given amount of time.
 - (2) Percentages may not add up to the total due to rounding.
 - (3) Counts each baccalaureate graduate only once; does not count second major as another recipient.

- Notes:
- (1) Data is based on undergraduates who applied for financial aid and comes from analysis of financial aid applications (FAFSA) submitted as part of applying for state and/or federal aid. The 6-year average share of students submitting FAFSAs to UPIKE is 95%.
 - (2) FAFSA application changed options for parents' educational attainment with the 2024-25 application.
 - (3) Classification of first-generation student means that neither parent attended college.
 - (4) Includes undergraduate, degree-seeking students only.

- Notes:
- (1) A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session.
 - (2) Undergraduate class sections are defined as any sections in which at least two degree-seeking undergraduate students are enrolled for credit. Excludes all students in one-on-one classes. Each class section is counted only once and is not duplicated because of course catalog cross-listings. Excludes dual credit courses taught off-campus.
 - (3) Web-enhanced Learning refers to the share of sections in which faculty members utilized technology in class in the form of the Internet/World Wide Web for any portion of their lectures and interactive learning experiences with students. This also includes the hybrid courses and the fully online courses.

- Notes:
- (1) The faculty full-time equivalent (FTE) is equal to the number of fall semester undergraduate credit hours taught divided by 12. This only included class sections that are organized courses offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Excludes all students in one-on-one classes.
 - (2) The student FTE is equal to the sum of the number of fall semester undergraduate credit hours times the number of students enrolled in each of the courses divided by 15.
 - (3) The student-faculty ratio is the respective fall semester student FTE divided by the faculty FTE.

- Notes: (1) Developmental level courses do not carry academic credit toward a degree program. Lower level includes course numbers under 300. Upper level includes course numbers 300 and above. Only includes courses offered for credit; does not include laboratory, clinical, or aiding sessions which do not carry credit. Division totals will under-represent teaching experiences with students in such instances. Excludes all students in one-on-one classes. Excludes dual credit courses taught off-campus. Developmental courses were phased out spring 2021.
 (2) Student FTE is a hypothetical student who enrolls in 15 credit hours per semester.
 (3) Division/College FTE may not add up to total undergraduate FTE due to rounding.

Notes: (1) The Higher Education Price Index (HEPI) is an inflation index designed specifically to track the main cost drivers in higher education. It is a more accurate indicator of changes in costs for colleges and universities than the more familiar Consumer Price Index. HEPI is issued annually by Commonfund Institute and is distributed free of charge to educational institutions.

Annual Changes in Total Current Expenditures / Higher Education Price Index (HEPI)

Financial Responsibility Test

Note: (1) Composite scores range from -1 to +3. Institutions with scores of 1.5 or above "pass." The Department of Education (DOE) considers them to have the financial resources to replace existing technology with newer technology; replace physical capital that wears out over time; recruit, retain, and retrain faculty and staff members; and develop new programs. Institutions with composite scores between 1 and 1.4 are allowed to participate in Title IV under a "zone alternative," under which they are subject to special requirements and enhanced monitoring by the DOE.

- Notes:
- (1) Does not include dual credit students or other non-degree students.
 - (2) Includes tuition and all institutional aid for undergraduate students only.
 - (3) Includes all tuition revenue and all institutional aid regardless of level of student. This rate will appear low due to the fact that the KYCO and KYCOM shares of tuition and fees are higher than the KYCO/KYCOM shares of institutional scholarships and fellowships.
 - (4) The AIKCU (Association of Independent Kentucky Colleges and Universities) average discount rate is computed from the member four-year institutions' Total Tuition and Fees, Total-Allowance of Student Grant Aid Applied to Tuition and Fees, and Net Grant Aid to Students-Total on their IPEDS Financial Survey. Two (11%) of the 18 AIKCU institutions have doctoral/professional programs and 12 (67%) have at least one masters program where tuition and fees are combined with undergraduate tuition and fees.
